About Us

NUBUSS

PORTFOLIO

We are a consulting company specialized in Cloud Security Services, Cloud Management Solutions and DevOps

We assume the demands and the constant innovation of technologies, which is why we help companies with today's IT challenges.

At Nubuss, we are committed to the growth of IT areas, which is why we provide a unique and exceptional service, personalized attention to each of our clients.

We believe in building long-term relationships and we work tirelessly to make sure our clients are satisfied with the service they receive.

NUBUSS PORTFOLIO

Organizations are increasingly adopting the use of clouds and are faced every day with management, orchestration, automation, governance, security and cost challenges for each cloud.

Our solution allows us to centralize all these aspects in a single platform, providing the organization and those responsible, easiness and optimization of the use of cloud resources:

CLOUD MANAGEMENT PLATFORM

- Unified view of cloud resources
- Orchestrate the infrastructure and services between the different clouds
- Centralize management of cloud resources
- Centralized cloud usage, cost reporting and much more

Consulting Service

Just a click away at www.nubuss.com

NUBUSS PORTFOLIO

We provide consulting services transversally in all the products and services we sell

guaranteeing engineers with technical certifications and experience in the field, which generates confidence in our clients and successful implementations

CONSULTING SERVICE

We are always looking to generate added value for our clients.

With the purpose of becoming a true ally and not a simple service provider.

DevOps

Just a click away at www.nubuss.com

NUBUSS PORTFOLIO

It is a philosophy that promotes better communication and collaboration between the development and operation teams.

We can help implement a complete architecture agnostic or cloud-based approach.

Delivering new features faster while keeping the environment stable is the business goal

DEVOPS

There are Open Source and market tools that we can implement to cover the entire chain, regardless of the cloud provider the client uses. Also, we can implement the entire chain using only MS Azure DevOps technologies.

Cloud Security

Just a click away at www.nubuss.com

NUBUSS PORTFOLIO

- Reduce costs with an integrated solution
- Protect hybrid environments effectively
- Employ the world's largest and most trusted security presence

CLOUD SECURITY

Identity and Access Management

Demonstrate that users are authorized and secure before granting access to apps and data

Threat Protection

Protect yourself against advanced attacks; quickly detect and respond if security is breached

Information Protection

Protect sensitive data throughout the lifecycle, inside and outside the organization

Ready to Start!
